

FollowMyHealth Patient Portal: Requesting Appointments from iPhone

The mobile portal views will look slightly different on an Android phone vs. an iPhone, but both will have the exact same tab functions. Please note that the following screenshots will be views from an iPhone.

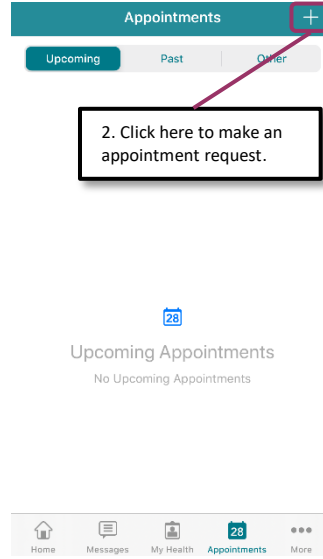

Android

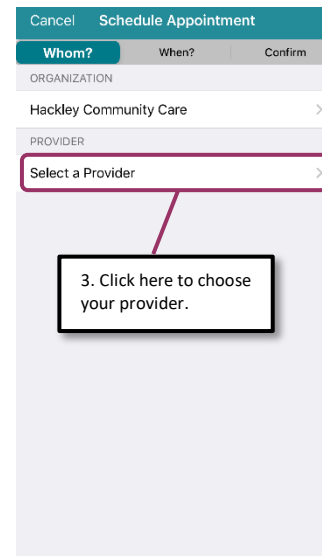

iPhone

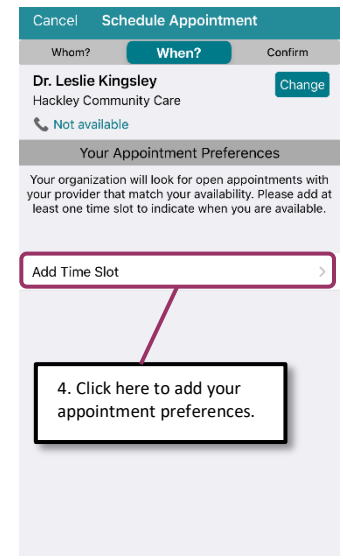

1. Select "Appointments".

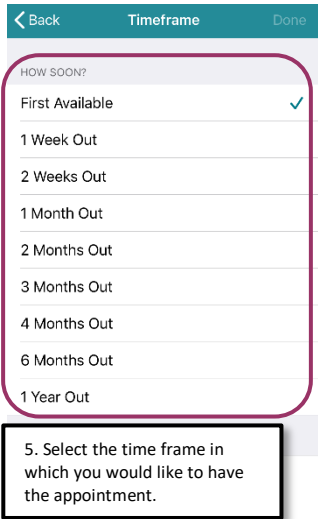

2. Click here to make an appointment request.

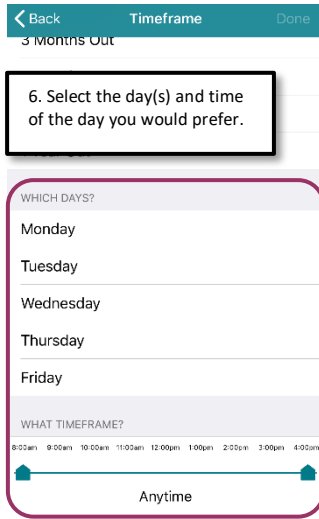

3. Click here to choose your provider.

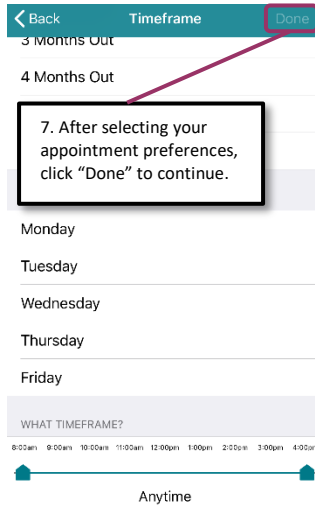

4. Click here to add your appointment preferences.

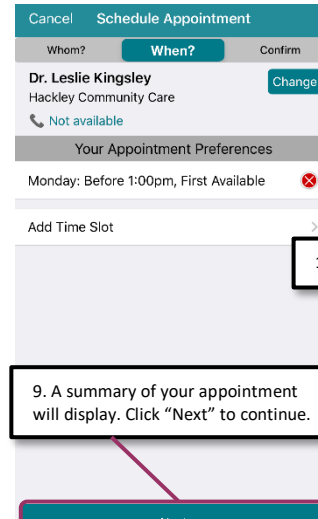

5. Select the time frame in which you would like to have the appointment.

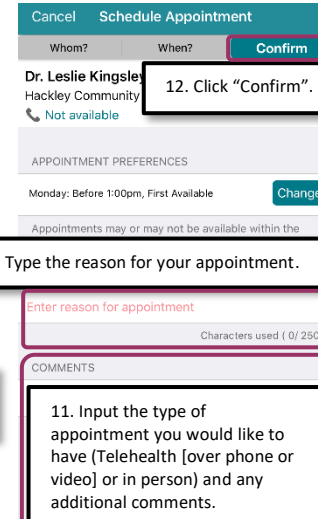

6. Select the day(s) and time of the day you would prefer.

7. After selecting your appointment preferences, click "Done" to continue.

9. A summary of your appointment will display. Click "Next" to continue.

12. Click "Confirm".

10. Type the reason for your appointment.

11. Input the type of appointment you would like to have (Telehealth [over phone or video] or in person) and any additional comments.

After sending an appointment request, you will receive a message in your inbox to confirm the date and time of your appointment. You will receive a call if more information is required.
